### Description:

The International Journal on Semantic Web and Information Systems (IJSWIS) promotes a knowledge transfer channel where academics, practitioners, and researchers can discuss, analyze, criticize, synthesize, communicate, elaborate, and simplify the more-than-promising technology of the semantic Web in the context of information systems. The journal aims to establish value-adding knowledge transfer and personal development channels in three distinctive areas: academia, industry, and government.

**Authors of the papers from the the track/session on SEMANTIC WEB AND ONTOLOGIES: APPLICATIONS (PERSONALIZATION, INTEROPERABILITY, MANAGEMENT OF PERSONAL IDENTITY AND KNOWLEDGE) may be invited to submit significantly extended version of their papers. Papers accepted after full review will be published in a special session in the journal in 2009.**

Important Note: IJSWIS is the leading journal on Semantic Web and Information, with a great success since in only 3 years after publication is listed on SCI of ISI, Thomson Scientific. Click here for more info.
